The Law Regulating Newspapers and Periodicals

1 Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

2 If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid, the subscribers are responsible for all the numbers sent

3 If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills, and ordered their papers discontinued

4 The Courts have decided that a refusal to take a newspaper or periodical from the Post Office without notifying the publisher and the payment of all arrearages, is prima facie evidence of fraud

Subscribers to newspapers or periodicals removing are liable to pay so long as the paper or periodical may be sent to the residence of the party at the time of subscription unless notice is sent of such removal to the publication office

PORTABLE WRITING CASE designed for Army use The most convenient article ever offered for sale by d5 D BUGBEE & CO

IRON-CLAD STEAMERS.

NAVY DEPARTMENT }
Washington February 20 1862 }

THE Navy Department will, until the 24th of March next receive proposals for the complete construction and equipment of iron clad vessels for river harbor and coast defence

The vessels with the exception of those for the Mississippi river and its tributaries will be propelled by screws those for the Mississippi river and tributaries may be propelled by paddle wheels—The hulls will be either wholly of iron (which would be preferred) or of iron and wood combined as the projectors may consider most suitable for the object [illegible] at their sides and decks must be protected with an iron armament sufficient to resist the heaviest shot and shells

The vessels for the Mississippi river and its tributaries are not to draw more than six feet water when fully equipped and armed at which draft they are to be able to maintain a permanent speed of nine knots per hour in still water, and carry sufficient coal in the bunkers for six days steaming at that speed Their armament will consist of not less than six eleven inch guns.

The vessels for harbor defence are not to draw more than twelve feet water when fully equipped and armed at which draft they are to be able to maintain a permanent speed of ten knots per hour in smooth water and carry sufficient coal in the bunkers for seven days steaming at that speed—Their armament will consist of not less than from two to four eleven inch guns

The vessels for coast defence are not to draw more than twenty feet water when fully equipped and armed at which draft they are to be able to maintain a permanent speed of fifteen knots per hour at sea, and carry sufficient coal in the bunkers for twelve days steaming at that speed Their armament will consist of one or two fifteen or twenty inch guns

The guns of the vessels for harbor and coast defence are to train to all points of the compass without change in the vessel's position

The propositions must state the number of vessels subject to the election of the Department which the party proposes to furnish complete in every respect embracing armour plating, steam machinery and equipments of all kinds ready for service excepting only the ordnance and ordnance stores and provisions, the proposition must be accompanied by descriptions, specifications drawings, and models of such character that the work could be executed from them

The place of delivery must be stated, the time within which the vessel or vessels are to be completed and also the total sum to be paid for each

It will be stipulated in the contract that one-fifth of total amount will be retained by the Government until sixty days after the reception of the vessel in order to give it a trial the remaining payments, made with due regard to the proper performance and progress of the work, the contract will also embrace forfeitures for failure to perform the conditions specified

Bids must be accompanied by the guarantee required by law that, if a contract is awarded it will be promptly executed; and the names of the parties who are to become the sureties to the amount of the face of the contract will also be stated

The Department will consider any other proposition that may be presented in which the draft of water [illegible] named is not exceeded

The Department will be at liberty to accept or reject any or all the propositions. dawtw f27

Navy Supplies—1862-'63.

NAVY DEPARTMENT

Bureau of Provisions and Clothing, April 2, 1862

SEPARATE PROPOSALS, sealed and endorsed "Proposals for Navy Supplies" will be received at this Bureau until [illegible] o'clock A M on Wednesday, the 30th day of April next, for furnishing and delivering (on receiving ten days notice, except for biscuit for which five days notice shall be given for every thirty thousand pounds required,) at the United States navy yards at Charlestown Massachusetts, Brooklyn New York, and Philadelphia, Pennsylvania such quantities only of the following articles as may be required or ordered from the contractors by the chief of this bureau, or by the respective commanding officers of the said navy yards during the fiscal year ending June 30, 1863 viz

Biscuit, flour rice, dried apples sugar, tea, coffee beans, molasses vinegar and whiskey

The biscuit shall be made wholly from sweet superfine flour of the manufacture of the year 1861 or 1862, but shall in all cases be manufactured from flour made of the crop immediately preceding the dates of the requisitions for the same, and shall be fully equal in quality, and conform in size and shape, to the samples which are deposited in the said navy yards; shall be properly baked, thoroughly kiln dried well packed, and delivered free of charge to the United States in good sound, well dried, bright flour barrels, with the heads well secured or in air and water tight whiskey or spirit barrels, at the option of the Bureau

The flour shall be equal to the best Richmond and Baltimore brands, and of the manufacture of wheat grown in the year 1861 or 1862, but shall in all cases be manufactured from pure sound, fresh ground wheat of the crop immediately preceding the dates of the requisition for the same, shall be perfectly sweet, and in all respects of the best quality, and shall be delivered in good shipping order, free from all charge to the United States in the best new, well seasoned, sound bright barrel or half barrels as the case may be—the staves and headings to be of red oak, of the best quality, strong and well hooped with lining hoops around each head and equal in quality to sample barrel at the said navy yard two half barrels to be considered as a barrel, and not more than one third of the required quantity to be in half barrels

The rice shall be of the very first quality and of the crop immediately preceding the dates of the requisitions for the same

The dried apples shall be of the best quality, and shall be prepared by *sun drying* only and of the crop of the autumn immediately preceding the dates of the requisitions for the same and shall be delivered in packages containing not more than three hundred pounds

The iron hoops on the barrels and half barrels containing whiskey molasses and vinegar to be well painted with red lead

The sugar shall be dry and fit for packing and equal in quality to the best Havana sugar

The tea shall be of good quality Oolong, equal to the samples at said navy yards and be delivered in half and quarter chests only

The coffee shall be equal to the best 'Cuba, according to sample

The beans shall be of the very first quality, white beans and shall be of the crop immediately preceding the dates of the requisition for the same, 64 pounds to be taken as one bushel

The molasses shall be fully equal to the very best quality of New Orleans molasses and shall be delivered in new well seasoned red oak barrels and half barrels, and with white pine heads not less than 1¼ inch thick, the staves not less than ⅞ inch thick, the barrels and half barrels to be three quarters hooped and in addition to have four iron hoops one on each bilge one 1½ inch in width, and 1 16th inch thick and one on each chime 1¼ inch in width and 1 16th inch thick, and shall be thoroughly coopered and placed in the best shipping condition one-third the quantity to be in half barrels if required by the Bureau

The vinegar shall be of the first quality, equal to the standard of the United States Pharmacopæia, and shall contain no other than acetic acid and shall be delivered in barrels and half barrels similar in all respects to those required for molasses, with the exception that *white oak* staves and heads shall be substituted for red oak staves and white pine heads, and shall be thoroughly coopered and placed in the best shipping order one-third to be in half barrels.

The whiskey shall be made wholly from grain, sound and merchantable and be full first proof according to the United States custom house standard, and shall be double rectified It shall be delivered in good new, sound bright, three-quarters hooped well seasoned white oak barrels and half barrels, with white oak heads, the heads to be made of three piece heading and well painted, the staves not to be less than ⅞ inch thick and the heads not less than ⅞ inch thick and each barrel and half barrel shall be coopered in addition with one three penny iron hoop on each bilge 1½ inch in width and 1 16th inch thick and one three penny hoop on each chime 1½ inch in width and 1 16th inch thick as per diagram The whole to be put in good shipping order free of all charge to the United States, one third to be in half barrels

All the foregoing described articles, embracing casks, barrels, half barrels, and boxes shall be subject to such inspection as the Chief of the Bureau of Provisions and Clothing may direct the inspecting officer to be appointed by the Navy Department All inspections to be at the place of delivery Biscuit may however be inspected at the place of manufacture but will in all cases be subject to a final inspection at the place of delivery before the bills are signed therefor

The prices of all the foregoing articles to be the same throughout the year, and bidders may offer for one or more articles, and his proposal will be accepted for that, and for which his proposal may be lowest and where more than one article is awarded to a bidder the articles will be embraced in one or more contracts at the option of the Bureau

All the casks, barrels, and half barrels boxes or packages, shall be marked with their contents and the contractor's name All the barrels and half barrels of flour and bread shall have in addition to the above the year when manufactured or put up marked upon them

(The samples referred to in this advertisement are those selected for the ensuing year *and have no reference to such as have been previously exhibited*)

The quantity of these articles which will be required cannot be precisely stated They will probably be about—

Biscuit,	3,000 000 lbs
Flour	1,000 bbls
Rice,	600,000 lbs.
Dried apples,	300 000 lbs.
Sugar,	600 000 lbs.
Tea	75,000 lbs
Coffee,	3,000 lbs.
Beans	15,000 bushels
Molasses	70 000 gallons
Vinegar	60 000 gallons
Whiskey	150 000 gallons

The quantities of any or all may be increased or diminished The contracts will therefore be made not for specific quantities, but for such quantities as the service may require to be delivered at those navy yards, respectively

Contractors not residing at the places where deliveries are required must establish agencies at such places that no delay may arise in furnishing what may be required and when a contractor fails promptly to comply with a requisition the Chief of the Bureau of Provisions and Clothing should be authorized to direct purchases to be made to supply the deficiency under a penalty to be expressed in the contract, the record of the requisition or a duplicate copy thereof at the Bureau of Provisions and Clothing, or at either of the navy yards aforesaid shall be evidence that such requisition has been made and received

Separate offers must be made for each article at each of the aforesaid navy yards, and in case more than one article is contained in the offer, the Chief of the Bureau will have the right to accept one or more of the articles contained in such offer and reject the remainder, and bidders whose proposals are accepted (and none others) will be forthwith notified and as early as practicable a contract will be transmitted to them for execution, which contract must be returned to the bureau within five days, exclusive of the time required for the regular transmission of the mail

Two or more approved sureties in a sum equal to the estimated amount of the respective contracts, will be required and twenty per centum in addition will be withheld from the amount of all payments on account thereof as collateral security in addition to secure its performance, and not in any event to be paid until it is in all respects complied with

Blank forms of proposals may be obtained on application to the navy agents at Portsmouth New Hampshire, Boston, New York Philadelphia, Baltimore and at this Bureau.

A record, or duplicate of the letter informing a bidder of the acceptance of his proposal, will be deemed a notification thereof, within the meaning of the act of 1846, and his bid will be made and accepted in conformity with this understanding.

Every offer made must be accompanied (as directed in the act of Congress making appropriations for the naval service for 1846-'47, approved 10th of August, 1846) by a written guarantee, signed by one or more responsible persons to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted enter into an obligation within five days, with good and sufficient sureties, to furnish the supplies proposed The Bureau will not be obliged to consider any proposal unless accompanied by the guarantee required by law; the competency of the guarantee to be certified by the navy agent, district attorney, or collector of the customs.

The attention of bidders is called to the sample and description of articles required as in the inspection for reception, a just but rigid comparison will be made between the articles offered and the sample and contract receiving none that fall below them, and their attention is also particularly directed to the joint resolution of 27th March 1854, and to the act of the 10th August, 1846

THE NEW YORK TRIBUNE.

LARGE PREMIUMS.

TO OUR FRIENDS

Hitherto we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE We have printed the cheapest newspaper considering the outlay by which it is produced, that was ever issued in any country selling it for little more than the cost of the white paper, have employed no agents to canvass for subscribers and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues circulated in their respective neighborhoods should be at least maintained and if possible increased We have been sparing even of verbal thanks to those friends, but have none the less realized the fullness of our obligation for their earnest, unselfish painstaking, persistent efforts

We propose for the present season only—in view of the state of the times and the fact that we are [illegible] white paper somewhat cheaper than we have [illegible] done or can hope to do after the close of the War—to make some small acknowledgment—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether original or renewals) to our Weekly and Semi Weekly editions We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish We propose therefore to forward to each person who during the two months ensuing shall send us subscriptions and payments for THE TRIBUNE as follows

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States also in Great Britain France and other foreign countries [illegible] Specifications Bonds Assignments and all Papers or Drawings for Patents executed on liberal terms and with despatch Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

The Agency is not only the largest in New England but through it inventors have advantages for securing Patents of ascertaining the patentability of inventions unsurpassed by if not immeasurably superior to any which can be offered them elsewhere The testimonials below given prove that none is *more successful at the Patent Office* than the subscriber, and as *success is the best proof of advantages and ability* he would add that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents

These besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe render him able beyond question to offer superior facilities for obtaining Patents

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors

TESTIMONIALS

I regard Mr Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse CHARLES MASON

Commissioner of Patents

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE,

Late Commissioner of Patents

Mr R H EDDY has made for me THIRTEEN applications, on all but one of which patents have been granted and that is *now pending* Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges"

JOHN TAGGART

During eight months, the subscriber in course of his large practice made on twice rejected applications *SIXTEEN APPEALS EVERY ONE* of which was decided in his favor by the Commissioner of Patents R H EDDY

In Peace or War, on land or sea,
Our flag, the ægis of the free,
Bright emblem of Columbia's glory!
Shall tell to coming years the story,
How, stout of heart, and strong of hand,
The patriots of our native land
Bore it, the nation's hope and life,
On tented field, 'mid fearful strife,
Still on! 'till through the sulphurous cloud
It broke in triumph, Treason's shroud!

Scandalous Insinuations.

Referring to the statement that the rebels have had information of McClellan's movements, and probably from men in official station, the Providence Post says

We are hardly astonished at this announcement, for we have believed for months that there were men in high positions who would sooner see the army of the Potomac annihilated, than allow Gen McClellan to obtain a victory! The malignant, violent, persistent assaults which have been made upon him, justify the suspicion that they have originated with the black hearted traitors, who would gladly deliver his entire command to the enemy, rather than he should achieve success in the field

Upon which the Portland Argus proceeds

It is dreadful to believe this, but we ask if the course which has been pursued toward General McClellan is not perfectly in keeping with it?—Those who have been laboring 19 years to take 19 States out of the Union and now exult in what they believe to be the success of their treasonable work, do not wish to see the 19 States back, the Union restored, and their boasted work undone

Now this is simply infamous It shows to what an extent this hatred of democratic papers towards the Republican administration will carry them It shows how intense was their chagrin at the defeat and demoralization of the democratic party, and how deep seated and revengeful is their feeling against the party which thus humiliated them,

What is the charge above made? Simply and squarely that the Government of this country, or men composing important portions of it, have, while ostensibly carrying on a war for the salvation of the Union deliberately acted in concert with the traitors who are trying to destroy it—that while pretending to fight for the maintenance of the Government of which themselves are members, they are secretly aiding the rebels to subvert it—and are thus guilty of the most stupendous treason known to history This is what the charges mean if they mean anything—for no man "in official position," except McClellan himself, is supposed to have known anything about the destination and force of McClellan's expedition, in advance, unless he was very high in the Government

No These scurrilous democratic organs intend to charge the treachery not only upon the leaders of the Republican party, but upon the very administration itself At least that is the direct implication from their language This, we repeat, is infamous—and it is infamous if they mean only the leading Republican politicians The papers which take this course, from a deep, malignant party spirit, should be made to point out the alleged traitors by name, that they may be punished—or be forced to withdraw their charges or hold their tongues That the enemy gets daily information from Washington, through a thoroughly organized spy system, we do not doubt—and that there are still traitorous clerks in the departments, pretending to be good union men, is equally probable, but the information which has enabled the rebels to concentrate a great force on Yorktown peninsula, to meet Gen McClellan, is quite as likely to have come from their own observation of his movements, by means of their spies in his camp—men enlisted in his own ranks perhaps—as from treasonable revelations by "high officials." There has been time enough since his movement commenced, and since he landed at Old Point Comfort, for the enemy to bring down the whole rebel army of the Potomac to defend the road to Richmond

FORT PULASKI FALLEN The reduction of Fort Pulaski, after a short bombardment by the Union batteries, is announced by telegraph It was a regular casemated work, and one of the strongest of the Southern fortresses. The rifled guns (Parrott's) seem to have had tremendous effect, and there is no reason to suppose that any other fortress South can offer a stouter resistance than Pulaski was capable of Its reduction ought soon to be followed by the capture of Savannah.

An Iowa regiment has a rule that any man who utters an oath shall read a chapter in the Bible. Several have got nearly through the Old Testament.

It seems from the late despatches, that both Pillow and Floyd were among the rebel generals in Beauregard's council of war, previous to his movement upon Pittsburg It has been reported that both these distinguished rebels were in disgrace for their cowardice—but we always doubted whether a rebel *could* do anything mean enough to exclude himself from the confidence of his fellows

The reports from the Pittsburg battle were still entirely unofficial up to yesterday morning There was no full or reliable report of our losses or those of the enemy It is certain, however, that the loss on both sides was tremendous. The fact that we have the field in a contest where the enemy designed to drive us into the river, is evidence sufficient that the victory was with the Union army,

The fact that one-half of our Western army was surprised by the whole rebel force, with a river in our rear and no bridges, is somewhat discreditable to somebody A good Providence was on our side, however, and the well-laid scheme of the enemy was overthrown

The death not only of Bushrod Johnson but of Bragg, the rebel General, was again asserted yesterday

At last accounts Beauregard was said to be "shut up" in Corinth, and a battle not possible for some days on account of the heavy rains—Another fight was soon expected, however

More than a thousand pieces of ordnance of different calibres have been manufactured for our Government, since the commencement of the war, at the South Boston, West Point and Pittsburg Foundries Also 121 heavy mortars and howitzers

CAPTURE OF ISLAND NO. 10.

General Pope's Official Report.

EXPEDITIONARY FORCES
NEW MADRID Mo, April 9, 1862

Major General H W Halleck

The canal across the peninsula opposite Island No 10—and for the sake of which I am indebted to General Schuyler Hamilton—was completed by Colonel Bissell a Engineer regiment and four steamers were brought through on the night of the 6th The heavy batteries I had thrown up above Tiptonville completely commanded the lowest point of the high ground on the Tennessee shore entirely cutting off the enemy's retreat by water, his retreat by land has never been possible through the swamp!

On the night of the 4th Captain Walke of the navy, ran the enemy's batteries at Island No, 10, with the gunboat Carondelet, and reported to me here One the night of the 6th gunboat Pittsburg also ran the blockade Our transports were brought into the river from the bayou, where they had been kept concealed at daylight on the 7th and Paine's division landed The canal has been a prodigiously laborious work It was twelve miles long, six miles of which were through heavy timber, which had to be sawed off by hand four feet under water

The enemy had lined the opposite shore with batteries, extending from Island No 10 to Tiptonville, Merriweather's Landing, to prevent the passage of the river by this army

I directed Captain Walke to run down with the two gunboats, at daylight on the 7th to open at selected for crossing and silence the enemy's batteries near it He performed the service gallantly and I here bear testimony to the thorough and brilliant manner in which this officer discharged his difficult duties with me and to the hearty and earnest zeal with which at all hazards, he co-operated with me

As soon as he signalled me the boats containing Paine's division moved out from the landing and began to cross the river The passage of this wide, furious river by our large force was one of the most magnificent spectacles I ever witnessed By twelve o'clock that night (the 7th) all the troops designed to cross the river were over, without loss or accident

As soon as we commenced to cross the enemy began to evacuate Island No 10 and his batteries along its shore The divisions were pushed forward to Tiptonville as fast as they landed Paine leading The enemy was driven before him, and although they made several attempts to form in line of battle and make a stand Paine did not at once deploy his columns The enemy was pushed all night vigorously, until at four o'clock, A M he was driven back upon the swamps and forced to surrend r

Three generals seven colonels seven regiments several battalions of infantry five companies of artillery over one hundred heavy siege guns twenty four pieces of field artillery an immense quantity of ammunition and supplies several thousand stand of small arms a great number of teams, horses, wagons, &c &c, have fallen into our hands

Before abandoning Island No 10 the enemy sunk the gunboat Grampus and six of his transports These last I am raising, and expect to have ready for service in a few days The famous floating battery was scuttled and turned adrift with all her guns aboard She was captured and run aground in shoal water by our forces at New Madrid

Our success is complete and overwhelming—Our troops, as I expected behaved gloriously

We have crossed this great river with a large army, the banks of which were lined with batteries of the enemy to oppose our passage, have pursued and captured all his forces and material of war, and have not lost a man nor met an accident

JOHN POPE, Major General

A MODEL CHARGE TO A JURY It seems to us that the following is worthy of the defunct but never to be forgotten Wouter Von Twiller

'If the jury believe, from the evidence, that the plaintiff and defendant were partners in the grocery, and that the plaintiff bought out the defendant and gave his note for the interest, and the defendant paid for the note by delivering to the plaintiff a cow, which he warranted not breachy, and the warranty was broken by reason of the breachiness of the cow, and he drove the cow back and tendered her to the defendant but the defendant refused to receive her, and the plaintiff took her home again, and put a heavy yoke or poke upon her to prevent her from jumping the fence, and by reason of the yoke or poke she broke her neck and died, and if the jury further believe that the defendant's interest in the grocery was worth anything, the plaintiff's note was worthless and the cow good for nothing, either for milk or beef, then the jury must find out themselves how they will decide the case, for the court, if she understand herself, and she thinks she do, is at a considerable non plus how such a case should be exactly decided"

A fierce little rebel lady writes to us that if she were to give us a bouquet she would poison it No doubt of it, but we are up to all such tricks We don't even let a female rebel, however beautiful, give us a kiss, lest she might for the occasion, be carrying poison upon her lips It is painful to us so have to refuse, but the necessity is only one of the many great evils growing out of this most wicked rebellion —*Pittsfield Advertiser*

KEROSENE OIL FOR SEWING MACHINES A lady who has had a very extensive experience in the working of sewing machines, informs us that the kerosene is the lightest and in many respects the best oil for them A few drops will clear out the gum gathered from other oils The kerosene has the disadvantage of an unpleasant odor, and requires to be applied oftener than other oils.

☞ The Portland Price current makes the following remarkable statement of prices

BUNTING—Little or none of this material is manufactured in this country, and we are almost entirely dependent upon the English for the article The demand for flags has raised the price of bunting from four dollars and twenty-five cents a piece to twenty-eight dollars, and book muslin, usually worth six to ten cents, now brings three dollars a yard

ANOTHER SOUTHERN DODGE. At Cockpit Point many neatly made graves of rebels were noticed, all labeled with more than usual care So great was the attention to the departed dead that suspicions were excited, and the Yankee troops dug into them, finding numbers of nice new tents, packages of clothing, mess chests, furnished with all the appliances of modern cookery, trunks of various articles, tools, &c

☞ A young man who applied at a recruiting station, for enlistment, was asked "if he could sleep on the point of a bayonet," when he promptly replied by saying "he could try it as he had often slept on a point of whiskey, and the kind they used where he came from would kill farther than any sheeting iron he ever saw"

THE TOOTHACHE In the course of a short but eventful life, we have met seven or eight individuals who never had the toothache! Blissful ignorance! May their shadows never grow less! and when they shall have passed from this indifferent world to a better one (possibly—but, well, no matter), may it not be recorded over their last resting place, "Dead of the toothache" We have had it, it is not a delusion nor a humbug, nor a joke, but a matter in which one takes a lively and painful interest With a severe toothache it is as bad as washing day in the house every day in the week, in its wear and tear on one's amiable disposition One gets a mirror and casts reflections upon himself, by displaying to his own view the remote recess of his face, to see if that looks worse than the rest The view is not encouraging The tooth obstinately gives no sign of the time when it will cease aching All is desolate within, and the mouth looks like a ten-acre lot full of stumps We try cloves, we try "pain killers" and "instant reliefs" without number A facetious friend gravely tells us to try his remedy just once, as he has never known it to fail It is to fill the mouth with cold water, then set on the stove till the water boils! As he closes his smart little recipe, he gets several paces beyond the stretching length of our right leg We lay down, and we get up again We care nothing for the Union, the war, the South our friends or the rest of mankind,'

With a maddened brain we rush to the dentist's office, rudely kicking two small boys off from the walk We hate dentists professionally We arrive there and are politely invited to sit in their soft-cushioned chair We look around us and see the fearful array of ugly-shaped, brightly polished villanous weapons of attack, called instruments We are asked to open our mouth—there—just a little wider—Is that the one? Oh h h! Yes, that is it—With a sardonic expression meant for sympathy the dentist inserts a sharp arranges out of some sort and girdles the tooth He then carefully produces the very ughest and most horrible looking instrument that man has yet invented to torture the face with, and gets a strong hitch on the tooth And then Oh, horror Type cannot express the fiendish yell we set up for it seems as if our head body legs boots and all had been slowly compressed into the size and shape of a Brandreth's pill—but that tooth, has seceded! It has vacated ranks! The grim dentist, smiling, holds it up for us for inspection We look at it A little tooth! and it has left room enough for five just like it To be sure the mouth bleeds a little and the lentist bleeds us a little more to the tune of a quarter We feel in the world again now, and for a few hours smile in a silly manner at everything and everybody—we are so excessively happy—*Syracuse Daily Courier*

TELEGRAPHIC TO THE Daily Whig and Courier.

[Dispatches to the Evening Papers.]

Surrender of Fort Pulaski—Terrible Fire on the Fort—Parrot Shot Go Through the Walls — From Fortress Monroe—The Rebels left Fredericksburg.

FORTRESS MONROE, 14th.

A flag of truce from Craney Island brought Norfolk papers, which were taken to headquarters, and efforts made to keep the good news of the fall of Fort Pulaski from the representatives of the press. The Baltimore American, however, succeeded in gleaning the following, it being sedulously kept from the regular reporter of the Associated press:

The Savannah Republican says in substance: It learns with deep regret, that after a gallant defence against superior guns, Fort Pulaski surrendered at two o'clock on the afternoon of the 11th. Corporal Law of the Pulaski Guards, who left Thunderbolt after Pulaski's flag was hauled down, brings intelligence of the event. The surrender was unconditional. Seven large breaches were made in the south wall by the Federal battery of light Parrot guns at King's Landing. All the barbette guns on that side were dismounted; also three casemates, leaving only one gun bearing on that point. Three balls entered the magazine, and a clean breach was made in i . The conical balls of the Parrot guns went clear through the walls at nearly every fire.

Colonel Olmstead telegraphed on the previous evening that no human being could stand upon the ramparts a single moment, and that thousands of large shells had exploded within the fort.

The Republican gives no particulars as to the number of men and officers in the fort at the time of its surrender, but says none were killed and but four wounded.

A Richmond paper contains an editorial that the Naugatuck, Monitor and Galen, all armored vessels, might come up the James river, and by their invulnerability and powerful guns, take and keep possession of the city, and proposes that the channel on James river be obstructed by stone at once.

Nothing has been seen of the Merrimac to-day.

NEW YORK, 15th.

Steamer Jersey Blue, from Newbern 11th, has arrived.

The health of the troops at Newbern is excellent. Active preparations are being made to reduce Fort Macon.

The steamer Albany will soon leave for New York with 300 rebel prisoners.

PITTSBURG LANDING, 14th.

A force of 4000 men, on five transports, left here Saturday night, accompanied by the gunboats Tyler and Lexington, and proceeded up the Tennessee river to a point near Eastport, Miss., where they landed, and proceeded to Bear Bridge, and destroyed the two bridges on the Mobile and Ohio railroad. A force of 150 rebel cavalry was there, and after having four killed, retreated. The expedition returned Sunday night without losing a man.

This cuts off all the communication of the rebel body at Corinth with Alabama and the rest of rebeldom, except New Orleans.

A flag of truce arrived at the outposts yesterday with a son of Governor Johnson of Kentucky, asking for his father.

CINCINNATI, 15th.

Our troops retook on Monday all the batteries lost on Sunday, and twelve pieces from the rebels.

The rebels were so confident of their ability to hold our camps taken on Sunday, that with a single exception they did not destroy them.

On Tuesday Beauregard sent a flag of truce requesting permission to bury his dead, saying, "Owing to the heavy reinforcements you received on Sunday night and Monday, and the fatigue of my men, I deemed it prudent to retire, and not renew the battle."

The permission was not granted. The bearer of the flag admitted that Beauregard had received a slight wound in the arm.

The Lowell Courier of the 10th says that letters received in that city the day previous from General Butler, who dated from Ship Island, make no mention of his intention to come North.

General Mitchell has accomplished a splendid success in gaining the great Southern railroad—the rebels' main artery—as he did by a forced march of incredible difficulty, to Huntsville, Alabama.

General Lander, a short time before he died, wrote a poem, which, during his last illness, he desired his wife, in the event of his death, to send to the Atlantic Monthly. It will appear in the May number of that periodical, with the title, "Under the Snow."

FEDERAL PRISONERS AT RICHMOND. Col. W. E. Woodruff of the Kentucky 2d regiment arrived at New York in the latter part of last week from Richmond, where he has been a prisoner since Bull Run. He describes the treatment of the Federal prisoners there as inhuman and barbarous. Colonel Corcoran is still there with no hope of a release. A note written on the back of one of Colonel Corcoran's cards was received by Lieut. Connolly of the New York 69th, who has lately returned from imprisonment in Richmond. It reads as follows:

"Compliments of Colonel Michael Corcoran, Sixty-ninth Regiment New York State Militia, who feels like a lion."

The rumor that Colonel Corcoran has been detained a prisoner longer than was expected, from the fact of a number of maps and charts having been found in his pocket, Col. Woodruff states to be a wicked falsehood.

The quarrel in Memphis between the city burners and the anti-city burners is waxing daily more fierce, a contemporary thinks. If the city gets much hotter, it may settle the dispute by spontaneous combustion.

MUDSILLS AND DUTCHMEN. In his address to the soldiers of his division, Gen. Sigel says:

"From 2 o'clock on the morning of the 6th to 4 o'clock in the afternoon of the 9th, you marched fifty miles, fought three battles, and took from the enemy a battery, a flag, and more than one hundred and fifty prisoners;" among whom were a Brigadier General, two Colonels, a Lieutenant Colonel and a Major.

When they remember that the men who did this were all either mudsills or Dutchmen, our "Southern brethren" will, we trust, give them credit for a pretty fair eighty-six hours' work.

WASHINGTON, 15th.

The President to-day, in response to a resolution of the House, transmitted all the correspondence which has taken place since June last, relative to the affairs of Mexico. Mr. Seward, in June last, instructed Mr. Corwin to endeavor to thwart the design of the rebels to gain possession of Lower California, and also to prevent rebel armed vessels finding shelter in Mexican ports, and carrying arms through that republic. The defence of Mexican sovereignty is urged, and a declaration made that the United States do not desire to acquire any part of Mexico. In communicating the rejection by the Senate of Mr. Corwin's treaty with Mexico, to him, Mr. Seward on the 3d of April said: "The President is unable to suggest to you any other mode for contributing to the deliverance of our sister republic from the embarrassments by which it is surrounded, which will be satisfactory to the Senate. Meanwhile, I desire to direct your most earnest attention to the necessity of guarding, if possible, against any such pledge of the resources of Mexico to foreign powers, as might affect our cause injuriously, or impair the ability of the people of Mexico to sustain the free government established by their own choice. You will not leave the government of Mexico in doubt for a moment, that the government and people of the United States are not indifferent concerning the peril by which they are menaced."

The Senate to-day, in executive session, confirmed the following nominations: Governor E. D. Morgan of New York, to be a Major General; Carl Schurz, and Colonel Nathan Kimball of the Indiana volunteers, Paymaster Benjamin Alford of the U. S. army; Capt. George L. Hartsoff of the Adjutant General's department, W. S. Smith of Ohio, Col. Charles Devens and Rufus Saxton of Massachusetts, Col. James H. Van Allen of the 3d regiment New York cavalry, and Napoleon B. Buford of Illinois—to be Brigadier Generals of volunteers. Amos Perry of Rhode Island was congrmed as Consul at Tunis.

Brig. Gen. Mitchell was nominated to-day for Major General on the recommendation of the Secretary of War for gallant services in the capture of Huntsville, Decatur and Stevenson's Junction.

Count Sweinz Crain, late Aid-de-Camp to the Archduke Maximilian, Governor of Venice has been tendered an appointment of Aid-de-Camp upon General Fremont's staff.

WASHINGTON, 15th.

The steamer Yankee, Capt. Eastman, arrived at the Navy Yard to-day, having left York river at six o'clock yesterday morning.

The Yankee went about eight miles up the York river on Sunday night, and anchored off Gloucester Point, where the steamers Penobscot, Marble Heart and Massachusetts were already lying. The rebel batteries at the Point, which are said to be very extensive, mounting mostly 100 pound rifled guns, tried the range of their guns at the steamers at three o'clock yesterday afternoon, the shot falling very little short of the Marble Heart. The vessels then dropped down the river, and about three miles below the point discovered a party of rebels building a battery on the north bank, on whom the Yankee opened fire at a distance of three quarters of a mile. The rebels seemed loth to abandon their works, and although the shells of the Yankee fell in their midst, they did not leave the vicinity, but took refuge in the woods and behind some neighboring log houses.

The Yankee, fired some 60 or 70 shots and shell during an hour and a half. As the Yankee was leaving the boats of the Marblehead were on their way to the shore to burn the houses behind which the rebels had taken refuge. During the engagement a battery up the river fired some eight or ten shot but they fell far short of their mark. The guns in the batteries at Gloucester Point are said to be only in a position to reach vessels below them in the middle of the river, and light draft vessels can approach within a short distance of the point with safety by hugging the shore.

NEW YORK, 15th.

The frigate Sabine has arrived from search for the Vermont. She fell in with her March 29, off Bermuda, lying unmanageable in the trough of a sea, kept company two days, supplied her with sails, rigging, &c. She was lost sight of during a squall on the 1st of April. She was in good condition when left, and would make for Port Royal.

ST. LOUIS, 15.

Several gentlemen connected with the army at Pittsburg, have arrived here, including Capt. Logan of Gen. Grant's staff, bearer of the General's official report of the battle. They left the army on Friday night.

Gen. Halleck arrived at Pittsburg on Friday, and immediately assumed command.

Gen. Grant's official report estimates our loss at 1500 killed and 3500 wounded.

The loss of the rebels in killed is greater than ours. Their dead were left on the field. An estimate of their wounded cannot be made as many must have been carried to Corinth and to other places.

The loss in our artillery force was great, many of the pieces being disabled by shot some losing all their horses and many men. Not less than 200 horses were killed.

The rebel army has its headquarters at the foot of Pea Ridge, extending two miles from Corinth. The advanced Federal forces are eight miles from Pittsburg, leaving only two miles between the opposing armies. A battle may be fought at any moment.

We have the strongest assurance that our army is ready for the encounter.

FORTRESS MONROE, 15th, 4 p. m.

To Hon. E. M. Stanton:

Nothing has occurred since my dispatch of this morning, to disturb the quiet then represented. The fine weather is very favorable to the operations at Yorktown, and it is probable that Gen. McClellan will soon be able to open his batteries at the fortifications of the enemy.

The French minister honored me with a visit this morning. He has gone to Norfolk, and will go to Richmond. On entering the fort, I gave him a salute of thirteen guns.

(Signed) JOHN E. WOOL, Major General.

NEAR YORKTOWN, VA., 15.

Yesterday morning at about 2 o'clock a section of artillery was posted within half a mile of the rebel works near the river, supported by sufficient infantry to prevent their being captured. Fifteen shot were fired into the rebel earthworks before they were able to bring their guns to bear, when our men withdrew without any damage.

A fine view was yesterday obtained of the position of the rebels both at Yorktown and Gloucester, from Fairchild's house at the mouth of Wormlith's Creek. Twenty-four guns were seen in the water battery at Yorktown and nine at Gloucester. At the latter place a large number of workmen were engaged in erecting new works. At Yorktown the old works used during the siege of 1780 were still visible and readily distinguished from those of recent construction. Heavy guns were mounted on their walls and the rebel flag was flying from its battlements — The principal wharf was covered with commissary stores, while the river was dotted with sails. Every one appeared to be busy as though the coming struggle depended upon his individual exertions.

Late in the afternoon a schooner anchored a short distance above the wharf, was burnt.

The flotilla was yesterday afternoon engaged in shelling out a body of rebels who were engaged in constructing a shore battery about four miles below Gloucester. The result of the firing was unknown.

On Saturday corporal Walter H. Bean, Co. E, Berdan's sharp shooters, was shot through the neck and back while on picket duty.

Things were remarkably quiet. A slight shower occurred this morning but the sun soon made its appearance.

NEW YORK, 15th.

Special despatches from Washington state that western dispatches received there report Fort Randolph as being strongly fortified by the rebels.

The committee on the conduct of the war are about to investigate the causes of the late surprise at Pittsburg.

Several civilians have been captured by the rebels while curiosity hunting around Manassas.

NEW YORK, 15th.

The St. Louis Republican says that Captain Hollins of the rebel navy was captured at Island No. 10, and is expected in that city soon.

NEW YORK, 15th.

Steamship City of Baltimore, from Liverpool 2d inst., arrived to-night. News anticipated.

NEW YORK, 15th.

The rooms of the New England Soldiers' Relief Association were opened this evening by the Committee of the Sons of New England. They are now ready for the reception of any sick or wounded soldiers, with every accommodation that benevolence and medical skill can suggest. The occasion was informal but highly interesting.

A resolution of thanks were offered by Col. Howe and passed unanimously on behalf of New England, to R. G. Moulton of Manchester, England, for his patriotic efforts, in conjunction with other loyal Americans abroad, in presenting Government with a full battery of Whitworth's guns, and securing their manufacture for the American Government for the next year, thus precluding any arrangement of a similar character by traitors in England.

The battery alluded to is now in service before Yorktown, and this is the first public recognition of the patriotism of loyal Americans in England.

37th Congress—2d Session.

WASHINGTON, 15th.

SENATE

Mr. McDougal called up his resolution calling on the Secretary of War for information for the causes of the delay in the trial of General Stone. He recapitulated the circumstances of his arrest, and said it seemed to him more the result of a Venetian Council of Ten than of officers of a free republic.

Mr. Wade defended the Committee on the Conduct of the War, and believed that the arrest of Gen. Stone was fully justified.

Mr. Wilson offered a substitute for the resolution, calling on the President for all the information not incompatible with the public interest relative to the arrest of Gen. Stone.

Mr. McDougal desired that it might lie over until to-morrow, as he wished to reply.

Mr. Morrill, from the Committee on the District of Columbia, reported back the House Pennsylvania Avenue Railroad Bill, with amendment.

Mr. Sherman, from the Conference Committee, reported back the Naval Appropriation Bill.

The Senate went into executive session. Adjourned.

HOUSE.

Mr. Trowbridge of Michigan, called up the resolution to reconsider the vote by which, on the 24th, the House adopted a resolution of inquiry as to the cause of the delay in the exchange of Colonel Corcoran, and directing the Secretary of War to stop all exchanges until Col. Corcoran was released.

After some debate the resolution was amended so as to request the Secretary of war to inform the House of the cause, if any, which has prevented the exchange of Cols. Corcoran, Wilcox and other prisoners of war held since last July.

The bill regulating the franking privilege was laid on the table—66 against 48.

The minority report, declaring that J. S. Morton was elected a delegate from Nebraska, was ordered to be printed.

The bill amendatory to the act establishing the Court of Claims, came up.

After a debate the bill passed. It authorizes the President to appoint two additional Judges of the Court of Claims, to have jurisdiction of all claims for which the government may be liable in law or equity, if they were sueable in courts of justice, except Congressional claims, or those otherwise provided for by Congress: also to have concurrent jurisdiction with the Circuit or District Court of all suits or cases against the government for title to real estate, or for muniments of title to the same. In all such cases the judgment shall be final, subject to the right of appeal. The rebels are excluded from the benefit of the act.

The House concurred in the report of the committee of conference on the disagreeing votes on the post-office and navy appropriation bills.

Adjourned.

TO THE PUBLIC.

Numerous Imitations of the STEWART STOVE having appeared in the market during the past few years, and, of late, attempts having been made to counterfeit the name or trade mark, it is deemed highly important that the public should know how to distinguish the *genuine* article when making purchase of a stove.

Has associated himself with Dr. J. K. LINCOLN, in the practice of Dentistry, at No. 3 Union Block, Main Street. All business relating to his profession promptly attended to according to the latest improvements in Dental Art.

DR LINCOLN would take this opportunity to express his thanks to his numerous friends in Bangor and vicinity for the confidence and patronage already received, and to assure them that no pains will be spared to merit a continuance of these favors. New discoveries in Dentistry, when found to be truly valuable, will be introduced into his practice without regard to expense. In this connection he would say that he has purchased the patent right for using the "Vulcanized Rubber Gum" for setting Artificial Teeth and has put up a large number of sets upon it during the last six months. It possesses many advantages over gold or silver.

All work, whether upon gold, silver, platina or vulcanite, will be warranted to give entire satisfaction. Persons from the country can have their work done in the shortest possible time. Temporary and partial sets can be made in a few hours. Office hours from 8 A. M. to 6 P. M. apr.

Whereas I was Blind, but now I see—Deaf, but now I Hear—Lame, but now can Walk!

All of which was accomplished through the matchless power of that INVISIBLE AGENT,

ELECTRICITY!

DRS. DEMING BROTHERS would say to those afflicted with Chronic Diseases that we shall remain in Bangor through the summer. We have been in this city five months, during that time we have treated scores of persons with different forms of disease, who had tried various remedies in vain for years, when by a few days' or weeks' treatment by us they have been fully restored to health. We now say to ladies and gentlemen—Come, let us examine your case. If we can cure you we will say so; if not curable by us we will tell you that. We have a sure means of ascertaining your disease.

We cure CONSUMPTION in the acute stages, or where the lungs are not fully involved. The most obstinate cases of Nervous or Sick Headache, Neuralgia in the head, face, or extremities; Acute Rheumatism instantly relieved, and, with Chronic Rheumatism, permanently cured in a very short time; Scrofula, Hip Diseases, White Swelling, Spinal Disease; Curvatures of the Spine; Contracted Muscles; Distorted Limbs, Palsy or Paralysis, Erysipelas; Salt Rheum, and all other forms of Humors; St Vitus Dance; Deafness; the various Diseases of the Eye; Stammering or Hesitancy of Speech—we cure every case that can be presented. For Dyspepsia Indigestion, Constipation and Liver Complaint, it is an Infallible Remedy. Electricity is perfectly adapted to all forms of Chronic Diseases. It is injurious to none, but makes a permanent cure in nearly every case.

Ladies who are sufferers with debility, Leuchorrhœa (or Whites), Inflammation, Ulceration of the Ovaries or Tubes, and Falling of the Womb; with the various Displacements, as Anteversion, Retroversion Inversion Ant flexion, Retroflexion, Obliquity, &c. Dysmenorrhea or Painful Menstruation, Amenorrhea, Absence of the Menses, Menorrhagia or too profuse Menstruation, will find their treatment an infallible remedy, if rightly applied. For Cancers of the Womb, Ovarian Tumors with Dropsy, Polypus of the Womb, and all kinds of fungus growths, the world does not afford another remedy that does its work so promptly, with no fear of harm and so little trouble to the patient.

Drs. DEMING BROTHERS are regularly educated Physicians, and understand the human frame thoroughly as well as the mysteries of Electricity, having used it as a remedial agent for twenty years this Spring.

P. S.—We extract Teeth, without pain, by Electricity.

DR. SWEET'S

Infallible Liniment!

—THE—

Great External Remedy

For Rheumatism, Gout, Neuralgia, Lumbago, Stiff Neck and Joints, Sprains, Bruises, Cuts and Wounds, Piles, Headache and all Rheumatic and Nervous Disorders.

FOR all of which it is a speedy and certain remedy and never fails This Liniment is prepared from the recipe of Dr Stephen Sweet of Connecticut, the famous bone setter and has been used in his practice for more than twenty years with the most astonishing success

AS AN ALLEVIATOR OF PAIN it is unrivalled by any preparation before the public of which the most skeptical may be convinced by a single trial

This Liniment will cure rapidly and radically RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used, it has never been known to fail

For NEURALGIA it will afford immediate relief in every case, however distressing

It will relieve the worst cases of HEADACHE in three minutes and is warranted to do it

TOOTHACHE also will it cure instantly

For NERVOUS DEBILITY and GENERAL LASSITUDE arising from imprudence or excess, this Liniment is a most happy and unfailing remedy — Acting directly upon the nervous tissues, it strengthens and revivifies the system and restores it to elasticity and vigor

FOR PILES—As an external remedy we claim that it is the *best* known and we challenge the world to produce an equal Every victim of this distressing complaint should give it a trial for it will not fail to afford immediate relief and in a majority of cases will effect a *radical* cure

QUINSY AND SORE THROAT are sometimes extremely malignant and dangerous but a timely application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected The worst case may be conquered by this Liniment in two or three days

BRUISES, CUTS, WOUNDS SORES ULCERS BURNS AND SCALDS yield readily to the wonderful healing properties of *DR SWEET'S INFALLIBLE LINIMENT* when used according to directions Also CHILBLAINS FROSTED FEET and INSECT BITES AND STINGS

Every Horse Owner

should have this remedy at hand for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases to which all horses are liable and which render so many otherwise valuable horses nearly worthless

Over four hundred voluntary testimonials to the wonderful curative powers of this Liniment have been received within the last two years and many of them from persons in the highest ranks of life

CAUTION

To avoid imposition observe the signature and likeness of Dr Stephen Sweet on every label, and also Stephen Sweet's Infallible Liniment blown in the glass of each bottle without which none are genuine RICHARDSON & CO

1
The London Quarterly (Conservative)

2
The Edinburgh Review (Whig)

3
The North British Review (Free Church)

4
The Westminster Review (Liberal)

5
Blackwood's Edinburgh Magazine (Tory)

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year They will occupy a middle ground between the hastily written news items crude speculations and flying rumors of the daily Journal and the ponderous Tome of the future historian written after the living interest and excitement of the great political events of the time shall have passed away It is to these periodicals that readers must look for the only really intelligible and reliable history of current events and as such in addition to their well established literary scientific and theological character we urge them upon the consideration of the reading public

The receipt of Advance Sheets from the British publishers gives additional value to these Reprints inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions

BLOOD RENOVATOR,

Is precisely what its name indicates, for while pleasant to the taste it is revivifying exhilarating and strengthening to the vital powers — It also revivifies reinstates and renews the blood in all its original purity and thus restores and renders the system invulnerable to attacks of disease It is the only preparation ever offered to the world in a popular form so as to be within the reach of all So chemically and skillfully combined as to be the most powerful tonic and yet so perfectly adapted as to act in perfect accordance with the laws of nature and hence soothe the weakest stomach and tone up the digestive organs and allay all nervous and other irritation It is also perfectly exhilarating in its effects and yet it is never followed by lassitude or depression of spirits It is composed entirely of vegetables and those thoroughly combining powerful tonic and soothing properties and consequently can never injure Such a remedy has long been felt to be a desideratum in the medical world both by the thoroughly skilled in medical science and also by all who have suffered from debility for it needs no medical skill or knowledge even to see that debility follows all attacks of disease and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable Such for example as the following Consumption Bronchitis Indigestion Dyspepsia Loss of Appetite Faintness Nervous Irritability Neuralgia Palpitation of the Heart Melancholy Hypochondria Night Sweats Languor Giddiness and all that class of cases so fearfully fatal if unattended to in time called *Female Weakness and Irregularities*. Also Liver Derangements or Torpidity and Liver Complaints diseases of the Kidneys Scalding or Incontinence of the Urine or any general derangement of the urinary organs pain in the back side and between the shoulders predisposition to slight colds hacking and continued cough emaciation difficulty of breathing and indeed we might enumerate many more still but we have space only to say it will not only cure the debility following Chills and Fever but prevent all attacks arising from miasmatic influences and cure the diseases at once if already attacked And as it acts directly and persistently upon the biliary system arousing the liver to action promoting in fact all the excretions and secretions of the system it will infallibly prevent any deleterious consequences following upon change of climate and water hence all travellers should have a bottle with them and all should take a table spoonful at least before eating As it prevents costiveness strengthens the digestive organs it should be in the hands of all persons of sedentary habits students ministers literary men And all ladies not accustomed to much outdoor exercise should always use it If they will, they will find an agreeable pleasant and efficient remedy against those ills which rob them of their beauty for beauty cannot exist without health and health cannot exist while the above irregularities continue Then again the Cordial is a perfect mother's relief Taken a month or two before the final trial she will pass the dreaded period with perfect ease and safety *There is no mistake about it this Cordial is all we claim for it. Mothers try it!* And to you we appeal to detect the illness or decline not only of your daughters before it be too late but also your sons and husbands for while the former from false delicacy often go down to a premature grave rather than let their condition be known in time the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path until too late to arrest their fatal fall But the mother is always vigilant and to you we confidently appeal, for we are sure your never failing affection will unerringly point you to Prof Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need O J WOOD Proprietor 444 Broadway New York and 114 Market Street St Louis Mo and sold by all good Druggists

MESSRS W E HAGAN & CO

I hereby certify that my Hair having become *gray* and my head partially *bald* I bought from Henry Reynolds Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE By its use my Hair was restored to its original color in three weeks It removed all dandruff, arrested its falling off and gave it a rich glossy appearance Its effects were entirely different from any Hair Preparation I ever used before I know of several ladies and gentlemen my intimate friends who also think the Inimitable as being the best and cheapest Hair Preparation in our market I can fully recommend it and will refer any one to Henry Reynolds, Druggist, for the truth of my statements WILLIAM BOSBYSHALL

SCIENTIFIC AMERICAN

—THE—

Best Mechanical Paper in the World

SEVENTEENTH YEAR

VOLUME VI—NEW SERIES

A NEW VOLUME of this widely circulated paper commences on the first of January. It is published WEEKLY and every number contains sixteen pages of useful information and from five to ten original engravings of new inventions and discoveries all of which are prepared expressly for its columns

To the Mechanic and Manufacturer

No person engaged in any of the mechanical or manufacturing pursuits should think of doing without the SCIENTIFIC AMERICAN It costs but four cents per week every number contains from six to ten engravings of new machines and inventions which cannot be found in any other publication It is an established rule of the publishers to insert none but original engravings and those of the first class in the art drawn and engraved by experienced persons under their own supervision

To the Inventor

The SCIENTIFIC AMERICAN is indispensable to every inventor as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the claims of all the Patents issued from the United States Patent Office during the week previous thus giving a correct history of the progress of inventions in this country We are also receiving every week the best scientific journals of Great Britain France and Germany thus placing in our possession all that is transpiring in mechanical science and art in these old countries We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers

Chemists, Architects, Millwrights and Farmers

The SCIENTIFIC AMERICAN will be found a most useful journal to them All the new discoveries in the science of chemistry are given in its columns and the interests of the architect and carpenter are not overlooked all the new inventions and discoveries appertaining to these pursuits being published from week to week Useful and practical information pertaining to the interest of millwrights and mill owners will be found published in the Scientific American which information they cannot possibly obtain from any other source Subjects in which planters and farmers are interested will be found discussed in the Scientific American most of the improvements in agricultural implements being illustrated in its columns
